

SHE WINS THE CASE

Judge Severens Affirms the Judgment

RECOVERED BY MRS. DORGAN

Against the Manufacturers' Insurance Company and It Must Pay the Assurance on Her Husband.

A motion for a new trial in the case of Mrs. W. E. Dorgan against the Manufacturers' Insurance Company was argued before Judge Severens in the United States court yesterday. Mrs. Dorgan recovered a verdict against the company some time ago for a judgment for \$5,000 by reason of the death of her husband, who held a policy issued by the defendant company. He was found dead on the shore of a lake where he had been fishing and a question was raised by the company as to the exact cause of death. It was claimed that he died from heart failure and not from an accident, and payment of the policy was refused. By the motion for a new trial was denied yesterday. The case comes from Kalamazoo county and has been closely watched by those interested in accident policies.

DOESN'T KNOW HIM.
The New York World Isn't Acquainted With Gardner.

Frank Gardner, the man arrested on suspicion of breaking into a room in Sweet's hotel, was before Judge Haggerty yesterday for examination. Mrs. Farnsworth, sister of Colonel Rieley of Sweet's hotel, was on the stand and testified to seeing Gardner enter her room in the hotel shortly after 1 o'clock in the morning and to his departure when discovered. Night Clerk Monroe at Sweet's testified to seeing Gardner descend the stairs with his telescope grip shortly after the breaking into Mrs. Farnsworth's room occurred. Charles Ingalsbe, night clerk at the Morton house was also sworn and testified that Gardner went to that house and registered as "R. S. King, Chicago," about 2 o'clock of the same morning. A telegram was received from the New York World yesterday morning, which paper Gardner claimed to represent, saying that they knew no such man. Detective Smith has learned that the letter heads bearing the name of the World were printed by the Stanton Printing company of this city. The company, it is claimed, did the work upon his presenting credentials. The further examination was adjourned until July 22.

Susan Tibbets' Husband.
Susan Tibbets in a bill of complaint filed with the clerk of the circuit court yesterday, says that her husband, Willard Tibbets, is not a fit man to live with. They were married in Macomb county in 1884, and soon after their marriage, she shows the court, he became abusive and cruel. He used indecent and obscene language and called her vile names, often questioning her chastity. She says also he threatened to kill her and being wholly unable to live in safety or peace at their residence, she was obliged by reason of his threats, intimidations, cursing and inhuman conduct to leave home for her own protection. He has become a habitual drunkard and refuses to contribute to the support of herself or their 5-year-old child. Mrs. Tibbets has not heard from her husband for the past six months and his whereabouts is unknown to her. She asks for a decree of divorce and for the custody of their child.

Looks Bad for Golds.
The case of the people against George Golds, charged with attempting to poison his son and family in Ada township by putting Paris green in the milk used by the family, was up again yesterday before Judge Severens. The testimony taken at the previous examination was read and signed and Dr. Danforth of Cascade was put on the stand. The doctor testified that he was called to attend the complainant's wife on the Sunday morning following the alleged poisoning. He found the patient suffering from symptoms of poisoning. She had previously been given strong emetics and was lying in a semi-comatose condition. Mrs. Golds, the woman alleged to have been poisoned, testified that her father-in-law had told the family on the day the trouble occurred to drink all the milk they could, for it would be their last chance. Her testimony was corroborated by other witnesses who were employed on the farm. The further hearing was adjourned until July 27.

White & Fiant Secure a Judgment.
The lumber firm of White & Fiant obtained a judgment in the circuit court yesterday against Charles R. Wyman for \$3,478.67 in a plea of trespass on the case. The evidence submitted in the case was that White & Fiant sent a shipment of lumber from Manistee to Wyman's planing mill at White Cloud to be dressed. Wyman represented to the firm that he had an order from eastern parties for that amount of lumber and would like to buy it to fill the contract. The lumber was turned over to him, and it was afterwards learned that Wyman had no order as he had represented and that he had disposed of the lumber elsewhere. He subsequently made an assignment and the company was unable to collect the pay for the lumber. They charged him with obtaining the lumber under false pretenses with the object of defrauding the company.

Passed a Forged Check.
L. W. Rice of the Bridge Street house charged B. A. Sheridan with having passed a forged check on him in payment of a board bill, and has sworn out a warrant for his arrest. Sheridan had been boarding at the house for five weeks and Saturday night paid a two weeks' board bill with a check on the National City bank for \$30 passed by L. E. Newman and endorsed by himself. He received \$21 in change. When the check was presented to the bank it was found that Newman had no account there and

when it was shown to Newman he pronounced it a forgery. Sheridan had formerly clerked for Newman in the Globe clothing store on Canal street and Rice supposed the check was all right. Sheridan had not worked for Newman for the past two weeks, but was at Rice's last Sunday. It is thought he has left the city.

Berry's Examination Adjourned.
Little testimony of importance was taken yesterday in police court in the case of the people against Bert Berry, charged with highway robbery. He was arrested for knocking Harry Goss over the head with a bill in an alley on East Bridge street on the night of May 22. Goss was robbed of a small sum of money, and a young man named Silvers having sent a bill to Berry, who had been in the alley, the crime was fastened upon Berry. The bill was found near the scene of the robbery and it was identified by Silvers as the one lent to Berry. The examination was adjourned until July 26.

Johnson Pleaded Self-Defense.
The examination of Elmer Johnson, charged with deadly assault upon Street Car Conductor Powers, was completed in police court yesterday. Johnson's plea was self-defense, that after Powers had ejected him from the car he stepped towards him with the appearance of doing him injury, and Johnson being excited from the previous trouble threw a stone to defend himself. At the conclusion of the examination Johnson's attorney, J. A. Fairfield, made a motion to discharge the prisoner. Judge Haggerty reserved his decision until this morning at 9 o'clock.

Whaled His Brother-in-Law.
Justice Brown issued a warrant yesterday on complaint of William E. Ward, Jr., of Cannon township for the arrest of Douglas Blakney on a charge of assault and battery. The parties are brothers-in-law and the case occurred yesterday morning as they had been harvesting a field of wheat. Ward's face looked as if he had been in contact with the deadly sickles. Blakney is a brother of Reid Blakney, who was arrested in Denver last winter by Sheriff McQueen for stealing sheep in Oakfield township.

Julia Failed to Respond.
Yesterday when the case of receiving stolen property against Julia Arnold was called in police court she failed to respond to the dulcet tones of Bailiff Holmes and a bench warrant was ordered issued for her apprehension. Her husband and the Hon. H. F. McCormick are her bondsmen for the sum of \$1,000 for her appearance. She is accused of receiving property alleged to have been stolen by young Hoggland and Remington.

John Henn Charged With Larceny.
Detectives Smith and Darr arrested John Henn on North Division street last night on suspicion of larceny. He had been employed for the last few weeks by Liveryman N. B. Miller on Kent street and yesterday morning he left his job. Miller missed a pair of shoes and \$1.50 in money, which were in the office before Henn left. He called on Mr. Wayne, Ind. left, but previous to going to Miller. He was drunk when arrested.

Dock Line Case.
City Attorney Taylor is busy at work on the dock line case. "We shall have the petition ready to file Thursday or Friday," he said yesterday. "If the case is not come up in court much before January. There are about 200 persons interested in the case, and it will take considerable time to hunt them all up."

Granted a Divorce.
Judge Adair yesterday dissolved the marriage between Julia E. Purnell and Andrew Purnell, the decree being granted to Mrs. Purnell on the grounds of extreme cruelty and failure to support. The defendant was prohibited from remarrying for two years from the date of the decree.

Police Court Notes.
The case of Christ Geigle, charged with petit larceny, was put over until August 19 yesterday in police court on the advice of County Agent Hathaway. The examination of Z. Zindema for resisting an officers was adjourned in police court until this morning. Eugene McRoberts was acquitted in police court on a charge of violating the dog ordinance.

LAW AND LAWYERS.
United States Court.
JUDGE SEVERENS.

Julius F. Pratt vs. American Wheel company; order directing the sale of the Kalamazoo plant of the defendant company and the funds realized from the sale of the property now in the hands of the receiver to the funds received from the sale.
Daniel S. Deming vs. the American Wheel company and Julius F. Pratt; order establishing a lien in favor of the creditors on the funds realized from the sale in the Pratt case and consolidating this cause with the Pratt case.
W. E. Dorgan vs. The Manufacturers' Accident Indemnity company; motion for new trial denied.

Circuit Court—Part II.
JUDGE ADAIR.

Julia E. Purnell vs. Andrew Purnell, chancery; decree granted complainant.
T. Stewart White, et al., vs. Charles R. Wyman, trespass on the case; judgment for plaintiffs for \$3,478.67 and costs.

Probate Court.
JUDITH PERKINS.

Estate of Sarah Calkins, deceased; will admitted to probate by William B. Tennington appointed executor.
Estate of Zena G. Winner, deceased; order determining heirs.
Estate of Johanna Stephenson, deceased; report of commissioners on claims filed.
Estate of Henry C. Smith, deceased; order determining heirs.
Estate of Erasmus Spaulding, deceased; petition for administration filed; hearing August 12.
Estate of Maria L. Williams, de-

ceased; Charles A. Calkins and George Clapperton appointed commissioners on claims.

A WOMAN DENTIST.

She Runs Two Offices and Finds Time for Philanthropic Work.

Dr. C. G. Turner is the only woman who has passed the board of registration in dentistry in New Jersey. She is not only a skillful dentist, but a remarkable woman in many ways, having two offices which she visits daily.

She is a great humanitarian, a strong advocate of temperance and woman's suffrage, and is also interested in the kindergartens and whatever promotes the welfare of children.

Dr. Turner was born in Ohio and educated in Indiana, where she was at one time a public school teacher. She went to Boston, where she was graduated from the kindergarten, being a protégé of Mrs. Peabody. Mrs. Turner went to New York, determined to take up dentistry, but found that the College of Dentistry in New York refused to graduate women. She then matriculated at the Women's College of the City of New York. It is well known that this college requires a higher standard to matriculate than any male college in the city.

Mrs. Turner began her training in dentistry under her husband, Dr. J. A. Turner. It is said she has conquered every branch of dentistry, both mechanical and operative. In the morning at 9, when the weather is fine, she rides the bicycle for a hour; at 9 a. m. goes to her office, where she remains until noon, after luncheon taking the train and going to her other office, remaining there until evening.

She is a woman of broad mind and takes deep interest in all the leading topics of the day. On Sunday she teaches an infant class of 100 children, and is also interested in improving the condition of the colored race.

When asked if she liked dentistry, Dr. Turner replied, "Certainly; every woman should enter the field for which she

DR. C. G. TURNER.

is best fitted, and where her strongest inclinations lead her. When asked if she met with many obstacles in her practice owing to her sex, she smiled and replied, "Well, yes, at first, but I find doing good work overcomes most of them. One day a lady entered my office and asked, 'Is the doctor in?' I replied, 'I am the doctor; can I do anything for you?' With a disdainful tone of the head she replied, 'No, indeed; I don't want any woman practicing on me,' and departed.

"Another time two gentlemen entered and asked for the doctor. When I answered 'I am the doctor' they looked at each other in dismay. Finally one remarked that he had a tooth needing a little attention. I examined his teeth, and before he left the chair I had filled two and drawn one. He then said it was the most satisfactory work he had ever had done, and frankly admitted that when he found I was a woman he wanted to go right out, but did not like to, so decided to have one drawn, if it killed him. Now this gentleman and all his family come to me for their dental work, and have sent me many customers.

"My thoughts on the 'woman' question? I think if women could vote many of our present difficulties would be at an end. It would make a great difference with the temperance question; also with the injustice in the industrial world. If women do the same work as well as men they should be paid for it at the same price. The standard of morality would be higher, as a man would be judged by the same standard as a woman, and only those of irreproachable character would be elected to offices of trust. For instance, it has been proved that a woman can become as good a dentist as a man. The New York colleges will not graduate a woman, for no other reason than that she is a woman. Here again is the Woman's college, requiring a much higher standard to matriculate than the male colleges. Why should this be? If we are capable, why not grant us equal rights, so long as many must depend on themselves as bread winners?

"It is all nonsense to think that a woman will be any the less womanly because treated with fairness. Ten to one many would never vote unless compelled to do so to put the right man in for self protection. The mere fact of the privilege being theirs would be sufficient."

In Passaic Dr. Turner has organized cooking schools, sewing schools and kitchen gardens, as well as the kindergartens. The Turner drum corps is composed of protégés of the doctor, who have named their band in her honor. She has many friends and is widely known throughout the United States by those interested in philanthropic work of all kinds. It is said by her friends that she devotes the whole income of one of her offices, which amounts to from \$8,000 to \$9,000 a year, to charity in aid of children only.

The above picture is a copy of an oil portrait of the doctor just finished.

A Philanthropist.

At a social gathering on Harlem avenue Professor Stone, of Columbia college, was present as an invited guest. Miss Remondina Longocoffin, a venerable maiden lady, was also present, and as usual she made frantic efforts to captivate the professor, who, by the way, is a confirmed woman hater. "Professor, have you old do you really think I am?" asked Remondina, coquettishly. "I can't possibly tell," replied the professor. "I'm not in charge of the department of ancient history,"—Professor Stone.

GEM OF THE WEST

Kettle Falls, Washington, a Vigorous New City.

Located at the Famous Falls of the Columbia River—The Scenic City of the North-West.

Speaking of Kettle Falls, Washington, the now famous young city at the confluence of the Colville and Columbia rivers, Mr. Aris, secretary of the Rochester & Kettle Falls Land Company, said yesterday to a reporter of THE HERALD:

"The city comprises 1,000 acres, all of which is surveyed and dotted out, business lots being 25x130 feet and residence lots 50x150 feet. Manufacturing is at present located on the Colville river, but when necessity demands it will be the distributing center for a section of country 100 miles to the four points of the compass. It must also be the receiving center for an equally large area of territory, comprising agriculture, mining and manufacturing, and in the near future the greatest shipping port for salmon will be located at this place; in fact, steps are already being taken to develop that great industry of the greatest salmon producing river in the world—the Columbia. Kettle Falls will not be two years old till November, but today it has two banks, a \$30,000 hotel, two churches, several stores, a fine school building, seventeen miles of graded streets and four and one-half miles of sidewalk. A fair showing for the time it has existed."

In the line of manufacturing it has a full roller flour mill, a saw and bind factory several saw mills, a brick and lime kiln, blacksmith shops, and minor manufactures. The city is lighted with electricity. Just across the Columbia river is the Colville Indian reservation 171,800 acres, which is to be opened to settlement. The possibilities of this opening to Kettle Falls can not be measured. Here is what a Spokane paper says it means to that city:

From the Spokane Review.
"Congressman Wilson has brought cheerful news about the Colville reservation. The bill that has gone to the president for his signature is an excellent solution of a problem in which Spokane has taken great interest. It means that within a brief time a large tract of land as fertile and productive as any in the country will be opened to white settlement. Spokane will feel the result of this legislation immediately. If Spokane is 100 miles away, it is to feel the effects of the opening, what will be to Kettle Falls, one mile away? Kettle Falls has a line of railroad, the Spokane & Northern, with good prospects that the Great Northern will ere long run its spur into this city. As to the Colville reservation, it is the finest in the world. A side of beef can be hung in the open air in July and left hanging for weeks and it will not become tainted, so pure is the atmosphere. It is a great country for hay fever patients and all pulmonary diseases—also cotton and every other kind of crop. There are two doctors with us, but they came for their health only, as it is a very poor place for practice."

"Another thing about the climate, it is the only section in the state where corn will grow, and is the garden of the world for the potato and the apple. The fact that Rochester, New York, capitalists have invested \$100,000 in Kettle Falls is sufficient guarantee of what shrewd Yankee think of it by way of investment. We propose to sell a lot of this fine land for the purpose of putting a system of water works and a steam ferry to the Colville Indian reservation. We will sell every other lot or every other pair of lots as purchasers may desire. We have opened an office with Grinnell & Son, 125 Broadway street, to settle the old National bank, where Mr. Smith and myself will be pleased to receive callers who may desire to learn of the possibilities of Kettle Falls or invest in lots. The finest routes to reach Kettle Falls from the east is via the Michigan Central, the Wisconsin Central and the Northern Pacific railroads."

Hot Cakes could not go any faster as we are selling our stock of Lace, Chenille and Silk Draperies, Window shades, Ladies' Hats or bonnets, Smirgins Rugs, etc., etc., because everything goes at cost. We still have a good line of Curtains on hand. Come quick.

MODERN MIRACLES

Dr. French's Magnetic Treatment.

A Sure Cure for All Diseases.

Hotel Vendome, 188 Fulton St.

Magnetism has proven a triumphant success for the safe and speedy cure of all diseases, and the vast army of cured patients throughout the country is a sure indication that Dr. French possesses this great "gift of healing" to a greater extent than any other man. No title and sensible talk of prejudiced persons against Dr. French's mode of treatment should not interfere with those who are sick and desire to get well. It is a duty they owe themselves and families to employ any and every means for their restoration to health. Relect your well advisors do not know what you suffer, therefore exercise your own judgment and reason, and act at once to Hotel Vendome and consult Dr. French, it may result in a quick cure.

Dr. French—Dear Sir: Ten years ago you cured me of a bad liver complaint and a morbid inactive state of my bowels, so that I was compelled to take medicines every day. I have not taken a dose of medicine since you treated me and cured me by your wonderful magnetic power. That was ten years ago, and all the time since I have enjoyed first-rate health, which shows your cures are lasting and permanent.

W. McElroy, Banquet.
Mrs. Frances Worth of Waterville was cured of Dyspepsia, Dropsy and Splentia in seven magnetic treatments; is perfectly well and has never had a return of her troubles. Mrs. L. J. Waterhouse of Newton cured of the worst form of dyspepsia by five magnetic treatments. She had to live on liquid food Mrs. J. H. Adams of No. 82 Appleton street was for a number of years a most abject sufferer from neuritis of the ovaries and uterus, neural disease and dyspepsia. She had also a serious heart trouble, which on several occasions had nearly cost her her life. Today Mrs. Adams is perfectly and entirely well.

Dr. French cures all forms of skin diseases, piles, rupture, hernia, stasis, gonorrhea, dyspepsia, constipation, all nervous diseases, all female complaints, without the use of instruments; consumption, deafness, catarrh, blindness, and all diseases of the blood or bones. Consultation, examination and advice free and private. Office hours from 9 a. m. to 8 p. m. Sundays 10 to 4.

FREE-TO-MEN.

When you get tired of the "doctor" with their pills and powders, write to me and I will send you a letter that will quickly and permanently cure you. I have cured many cases of other cases. A new discovery has been made which cures every thing else fails to cure. Write to me at once. Address, Boston.

Do not fail to attend the auction sale of groceries commencing Wednesday morning at 9 o'clock. Charles P. Rathbun, 125 Monroe street.

PECK'S DRUG STORE

This is the reason to Use Disinfectants Freely!

Exposed only about damp walls in the basement. Outbuildings, sewers, etc., should also be looked after, as sickness may be prevented by proper disinfecting. We sell:

Crude Carbolic Acid at 30 Cents per Quart Jug.

The crude acid has all the value of the refined and will prove quite as satisfactory for common use. The refined acid we recommend for household use.

To persons who object to the odor of carbolic acid we recommend:

Brome Chloralum.

This is non-poisonous and odorless. It is well adapted for washing and disinfecting refrigerators, lawns, etc. The odor is not offensive and it is equally good.

For purposes where a cheap disinfectant is desired.

Copperas is the Best.
We Sell 10 lbs of it for 25 Cts.

And the solution, 2 lbs to a gallon of water, will thoroughly disinfect outbuildings by pouring a little in occasionally. The price permits its free use.

Tar Camphor

Is the cheapest disinfectant. It is practically solid carbolic acid, and is used for preventing the ravages of moths. It is cheap, about one-third the price of gum camphor. The large clothing stores find it answers quite as well. It is perfectly white, does not stain, and comes in powder, scum and balls. The odor arising from it disappears on exposure to the air. It is well adapted for sanitizing garments, woodwork, and for every use where it is desired to be secure against moths. We keep all other antiseptics and disinfectants, but the above are the most practical.

WE DO SLEEP!

YES, WE DO.

"But it is in the witching hour of night," etc., etc. How exhausting it must be to "never sleep." One must naturally get "very tired." We must acknowledge the corn, but nevertheless we want your trade, your Coal trade, also Lima Cement, etc.

A. B. KNOWLSON,

22 PEARL STREET.

A DYSPETIC'S ARGUMENT

Is a growl, and that growl marks the limit of argument with him. The best way to get him to try a medicine would be to advise against it—but notice how different his tone after using Burdock Blood Bitters.

"I have suffered with dyspepsia for the last two years. Not long ago I commenced taking B. B. B. I am now on the second bottle, and I feel like a new man."

G. KNOX, 12 Sherwood Ave., Binghamton, N. Y.

Repeated tests with various remedies prove the fact that Burdock Blood Bitters will cure dyspepsia. The reason is plain. It tones the stomach to natural action and keeps the entire work of the system free from clogging impurities.

"I have been troubled with dyspepsia and heart disease for nine years, and found no relief until I tried Burdock Blood Bitters. Now I am well after taking two bottles."
